## BULLETIN ON CURRENT LITERATURE

The publications listed in this issue have been received by the library of the National Society for Crippled Children and Adults and are available for loan. The library does not stock copies for sale. Prices are listed, when known, so that orders may be addressed directly to the publishers. The publications are listed by author and title under the subject heading by which the item is cataloged and filed in the library. The subject headings in the Bulletin can be identified by being in all-capital letters.

Because the library may have only a limited number of copies of any item listed, and because of the great number of requests frequently received, it is suggested that the resources of local libraries be investigated first. The services of the library are extended to organizations and individuals whose local resources are so limited as to make information otherwise unavailable. It is understood that the borrower agrees to pay shipping charges for sending him the loan material and for returning it to the library.

The National Society for Crippled Children and Adults is a nationwide organization with headquarters in Chicago and more than 2,000 member state and local societies for the crippled and handicapped throughout the country. Its many projects and services are directed and supervised by professionally trained specialists. The Society provides services in health, welfare, education, rehabilitation, recreation, and employment to all types of handicapped persons. All services of the Society are established and carried out in a manner to supplement and extend and not to duplicate or compete with the services of any other agency, public or private. The National Society is supported by the annual sale of Easter Seals.

The first of these was the discovery of gold in California in 1848. This led to a great influx of people to the West, and the discovery of gold in Nevada in 1859 led to a similar influx.
